Git and GitHub

EDUCATION

Computer Systems and Networks
Engineering

Gerardo Barrios University

2023 – Present

Technical High School Diploma in
Accounting and Administration

National Institute of Jiquilisco

2020 – 2022

QA Tester in training with experience in educational projects and a strong interest in software quality assurance. I focus on identifying errors, analyzing application behavior, and contributing to the delivery of stable and functional products.

I have experience in manual testing, incident management and tracking using Azure DevOps, as well as a foundation in web development. I excel at learning, attention to detail, and a commitment to continuous improvement, and I am looking to further my professional development in the area of technology and software quality.

EDUCATIONAL EXPERIENCE

QA Tester and Web Developer – Academic Projects

Educational Experience | 2023 – Present

- Participated in academic projects as a QA Tester, performing manual testing to ensure software quality and application functionality.
- Created, documented, and tracked defects using Azure DevOps, contributing to continuous improvement processes.
- Collaborated with development teams to identify issues and ensure system stability and reliability.
- Developed web interfaces and features as part of university projects.
- Integrated and consumed APIs to enable communication between frontend and backend systems.
- Designed, created, and managed relational databases using SQL.
- Contributed to the analysis, documentation, and development of technological solutions in academic environments.
